THESE DOCKS are conveniently situated in Yokohama harbour and the attention of Captains and Engineers is respectfully called to the advantages offered for Docking and repairing Vessels and Machinery of every description.

The plant and tools are of recent patterns for dealing quickly and cheaply with work, and a large stock of material is always at hand, (plates and angles all being tested by Lloyd's surveyors).

Two powerful Twin Screw Towboats are available for taking Vessels in or out of Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable of lifting 35 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that of any port in the world.

## WHAT IT WILL DO.

A woman buys a sewing machine for what it will do; not as an article of furniture. A man carries a watch to tell him the time; not as an investment of surplus capital. The same principle when one is ill. We want the medicine or the treatment which will relieve and cure. The friend in need must be a friend indeed—something, or somebody, with a reputation, with a good record, with a history that justifies our confidence. There should be no guesswork in treating disease. People have the right to know what a medicine is, and what it will do, before they take it. It must have behind it an open record of benefit to others for the same diseases—a series of cures that proves its merit and inspires confidence. It is because it has such a record that

## WAMPOL'S PREPARATION

is bought and used without hesitation or doubt. Its Good Name is the solid basis for the faith the people have in it; and a good name has to be earned by good deeds. For the purposes for which it is commended it is honest, true and practical. It does what you have a right to expect it to do. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In Scrofula, Anemia, Nervous and General Debility, Infection, Blood Impurities and Wasting Complaints, it is to be thoroughly relied upon. Dr. L. L. Carrick says: "I have had remarkable success with it in the treatment of Consumption, Chronic Bronchitis, Catarrh and Scrofulous Affections. It is of special value in nervous prostration and depraved nutrition; it stimulates the appetite and the digestion, promotes assimilation, and enters directly into the circulation with the food. I consider it a marvelous success in medicine." Every dose effective. "You cannot be disappointed in it." Sold by chemists.

## RUSSIAN FISHING RIGHTS IN SAGHALIEN.

## GOVERNMENT DIFFERENCES.

A disagreement has occurred between the War Office at Tokio, the Department of Agriculture and Commerce, and the Foreign Office, as to whether the charters for fishing rights held by Russians in the south of Saghalien, which has now been taken possession of by Japan, should be confirmed. The War Office and the Department of Agriculture and Commerce are absolutely opposed to the confirmation of the charters, while the Foreign Office—though agreeing with the theoretical aspect of the contentions of the other Departments—maintains that the war, prosecuted in the cause of civilisation, must be terminated in the same spirit. Intercourse between Japan and Russia will be disturbed if the former deprives Russians of these rights, and it is not advisable to create any friction over such a trivial question.

A few days ago the Director of the Administration of Khabarovsk, who is now in Tokio, and the Ministers for War, Foreign Affairs, and of the Department of Agriculture and Commerce, held a conference to discuss the question. A further conference is to be held in a few days, when it is expected that the difficulty will be settled.—*Japan Chronicle*.

## THE DUTY ON RICE IN JAPAN.

## SOME STRONG CRITICISM.

By the passage, with some amendment, of the Customs Tariff Bill through the Diet, the temporary duty of 15 per cent. on rice has become permanent. The people believed that this duty—which came into existence while the country was engaged in a sanguinary war—would be repealed when peace was restored, says the *Tokio Mainichi*. The Government proposed in its Tariff Bill to make rice duty-free while it remains dutiable under the war-tariff arrangement, thus leaving it to be supposed they had no intention of permanently taxing the grain. At the Committee meeting of the Lower House, however, it was proposed to include rice in the regular tariff, and the proposal was assented to by a large majority. This move was made in the name of "protection for farmers," as is done in the United States, Canada, and Germany. Subjects of this kind are no longer discussed in a full House, where representatives of all classes of land-owners predominate. In an impartial and disinterested manner. It is simply a question of cause and effect. I looked at it from the point of view of general public welfare, this selfish proceeding on the part of representatives. However much as Japan may strive to increase her rice-crop, it would be well-nigh impossible to produce sufficient rice to feed the entire population, which is increasing at the annual rate of half a million. The restriction of imports by means of a tariff, obnoxious of the insular position of Japan, and thereby artificially enhancing the cost of living, is denounced by all who consider the question logically and fairly.

Despite the fact, continues the *Mainichi*, that the opposition was very strong outside the House, the latter body did not hesitate to pass this unpopular measure, an incident which shows that the so-called House of Representatives does not represent the views of the people, but those of only a section. It is the wealthy farmers who desire the price of rice to be increased, the middle-class farmers mostly working for their own food and having little to sell. The rise in the price of rice is a serious disadvantage for small farmers. These latter, in order to make up for the shortage of food, are obliged to work at some secondary occupation, such as sericulture and spinning, so that they, too, will not profit by the Tariff. In short, the only persons who will profit by the high price of rice are the large landed proprietors, whose interests are well looked after by the Lower House at the sacrifice of their poorer fellows. If universal suffrage had been in force in Japan, or even the property qualifications of electors had been lowered, the House would not have been able to do as it has. This incident, however, should serve as a further incentive to obtain the speedy extension of the franchise.—*Japan Chronicle*.

HONGKONG, TUESDAY, APRIL 10 1906.

## KOWLOON-CANTON RAILWAY.

In a recent issue of the *Hongkong Telegraph* we were in the happy position of being able exclusively to furnish our readers with an account of the work proceeding in connection with the Kowloon-Canton railway on the British section of the line. At that time it, no doubt, came as a surprise to the majority of people to learn that not only had the surveying of the route been completed, but that work had actually been commenced at five different places, by the erection of embankments which were intended to provide suitable levels, and carry the line at a safe distance above possible inundations, and over natural obstacles. Since the publication of that news, the work on the new line has proceeded with unabated energy and, for a Government project, with unexampled vigour. The Government have been pushing on the construction of the British section at the utmost speed and, although little or nothing has come to the attention of the public through the agency or medium of the Legislative Council as representing the community, there has been no slackness in the progress of the work. Rather the reverse, for it will be found that when His Excellency the Governor has occasion at a future meeting of the Legislative Council to refer to the Kowloon-Canton railway, he will be in a position to announce that the work has advanced by immense strides, and that the sums already voted towards the construction of the track have been largely exceeded. Indeed, His Excellency will, in all likelihood, ask the Council to grant an additional sum for the project, and that vote will be for a very considerable amount, if it is not merged in the sum of £2,000,000 sterling which, under a recent Ordinance passed by the Legislature, the Government is empowered to raise for railway purposes. We understand that work is actively proceeding at regular intervals along the route of the railway. The superintendent's office, it has been decided, will be located at Tsim-sha-tui, and already the staff is fully organised. The contractors have submitted their tenders which have been accepted and have begun operations. Some 15,000 labourers and foremen, it has been roughly estimated, will ultimately be engaged at one and the same time on the line—and it is probable that they are even now bending every effort to the speedy completion of a Government venture, which will mean so very much to Hongkong. The fact that 15,000 men will be engaged in the arduous operation of levelling the country in the New Territories through which the line will take its course, implies that great, not to say exceptional, efforts are being made to carry the project through in the shortest space of time. On this occasion, at least, no laggard spirit is being shown by those at the head of affairs; and we may take it for granted that every means to accelerate matters will continue to be adopted. This is probably the most interesting news that the people of Hongkong could obtain, for it indicates that the Government is not slow to recognise the material advantages to be derived by the early completion of the Kowloon-Canton railway, and is determined, at all hazards, to see constant communication by rail established between this Colony and the great city of Southern China.

A SASENO telegram says that the work of floating the battleship *Mikasa* is in progress. The *Asahi*, however, asserts that the authorities are showing profound anxiety concerning the operations. While the operations for refloating the *Mikasa* were in progress the other day, a steam-pipe exploded and a warrant officer was badly injured. He was removed to the naval hospital, but succumbed.

CHINA's representative at the celebration of the coming marriage between King Alfonso of Spain and I. R. H. Princess Ena of Battenberg, we understand, is to be H. E. Wang-Ta-hsi, Chinese Minister to the Court of St. James's. The proper person to go to Madrid for the purpose ought naturally to be H. E. Sir Chen-tung Liang Cheng, the Chinese Minister accredited to the country. Owing, however, to the non-settlement of the new Exclusion Treaty with the United States His Excellency cannot leave Washington, with the result that H. E. Wang-Ta-hsi has been appointed.—N. C. D.

## JAPANESE POLICY IN CHINA.

A highly important and instructive interview with the Prime Minister of Japan, Marquis Saionji, on the subject of the policy at home and abroad of the recently-elected Ministry appears in the *Kobe Herald* from the pen of Mr. Curtis, who recently passed through Hongkong. Since the present Ministry took office, the Premier, following Japanese precedent, has been studiously incommunicative, with the result that those interested in Japanese aims, and objects in the immediate future have been engaged in a somewhat hopeless attempt to deduce the intentions of that country from the latest acts of the Government. On the one hand we are assured that all the Japanese troops in Manchuria have now returned to Japan, while only one-third of the Russians have embarked for home so that the Manchurian difficulty still remains. It is satisfactory to note, however, from a telegram which appears in another column, that Manchuria will be evacuated by the entire Russian forces within eighteen months. Russia has solemnly undertaken to see that promise carried into effect. Marquis Saionji was questioned as to the political outlook in Eastern Asia, and incidentally reference was made to the native outbreaks that have lately occurred in Southern China. The Marquis expressed the opinion that affairs in China and Manchuria are now in a fairly settled state, and that so far as human foresight can judge, peace in the Orient may be held to be assured for a considerable period. He regarded the recent outbreaks of lawlessness in Southern China as purely local and in no way indicative of the presence of an anti-foreign spirit in the councils of the governing authorities. Such outbreaks, deplorable though they are, he considered bound to recur; and therein, in his opinion, lay the only real menace to the peace of the East, inasmuch as it is impossible to predicate the probable policy of foreign Powers in the event of further outrages occurring. He did not consider that any of the more recent acts of rapine and murder were allied in any way with the condition of things antecedent to the Boxer outbreak, which was encouraged, if not instigated, by officials within the Palace. It is important to learn that a statesman of Marquis Saionji's rank should be found on the side of those who believe that the sporadic outbreaks at different places in China do not represent Chinese views as a whole, but are merely the irresponsible acts of individuals who gain temporary notoriety among their fellows by how far the missionaries could be blamed for these occasional acts of crime, was mooted. The Marquis unhesitatingly acknowledged the purity of motive of many of the missionaries, and paid a high tribute of praise to their zeal and self-denying labours, but he thought it could not be denied that many of them go beyond their true and lawful province and indirectly meddle in political matters, sometimes affording asylum to refugees, and interfering with the course of justice and the authority of the mandarins over their own people. Coming to the question of the "open door" in Manchuria, the interviewer plainly said, that misgivings prevailed in many quarters that the "open door" was intended for Japanese traders exclusively. His Excellency replied deliberately and emphatically, in these words:—"It is a distinct feature of my policy to ensure the opening of the country to all alike, irrespective of questions of nationality." This is satisfactory from the commercial point of view, and being couched in clear and definite terms should prevent the possibility of any misunderstanding on the point. It also assures foreign Governments that the Japanese Foreign Office is resolved to maintain a continuity of policy in permitting the subjects of foreign Powers to participate in the benefits flowing from the results achieved by our ally in the late war. In fine, this is a timely and valuable exposition of Japanese policy which should serve to dissipate all ambiguities which may have previously existed on the subject of Japan's position in China. As a matter of fact, the only point on which the Marquis was at all dubious was as to what should occur in the way of foreign intervention should further outbreaks of an anti-foreign character arise in China, and it is not much to say that it passes the wit of man to forecast what would happen in such an event.

THE Formosa correspondent of the *Osaka Shimpu* sends the following returns of the loss of life and property destruction ascertained up to the 25th ultimo:—

Crushed to death...	Japanese	13
	Natives	4,005
Severely injured...	Japanese	24
	Natives	1,873
Houses collapsed...	Totally	4,214
	Partially	2,523

The correspondent writes that the casualties were much heavier among the women than among men, more than two-thirds of the list representing women. This is due to the fact that the feet of the women are crippled similarly to those of Chinese women. On the 26th ult., the list of casualties rose to 1,227 in killed and 2,329 in injured, 5,566 in the number of houses totally destroyed, and 10,938 in the number partially destroyed.

## LOCAL AND GENERAL.

THE destroyer *Hibiki* was launched at Yokosuka on 31st ult.

THE following telegram has been received from H. B. M. Consul at Cheloo dated 10th instant:—"Quarantine enforced against Hongkong."

THE final for the Soldiers Club Football shield is due to take place on Thursday, 12th inst. The Royal Engineers and West Kents are the contestants.

TEAMS from H. M. S. *King Alfred* and H. M. S. *Kent* played a friendly hockey match on the Club ground, at Happy Valley, yesterday afternoon. The *King Alfred* won by three goals to two.

THE Kuramoto Emigration Company has accepted a contract to supply 251 men for a Mexican colliery. The men are now being engaged, and will probably leave Yokohama or Kobe in June.

THE N. C. D. News learns that the Norwegian steamer *Noranda*, of 208 tons net and 1,283 tons gross, has been sold by Messrs. Sander, Weiler & Co., the agents at Shanghai, to Messrs. Tanno Yoko.

It is reported that the efforts to repair the damage to the Port Arthur Docks, which were blown up by the Russians, have been abandoned as useless. Operations for the entire rebuilding of the docks will be commenced shortly.

ADMIRAL Togo and General Nogi are projecting a scheme for the erection of a monument on Peiki Hill at Port Arthur in commemoration of the Army and Navy officers and men who fell in the attack on that fortress. Public support will be appealed to when details are completed.

THE coxswain of the steam launch *Hafag* appeared before Mr. C. A. D. Melbourne this morning on a charge of steaming in the harbour on the night of the 6th instant without lights. The defendant said that the wind extinguished the light. His Worship: "This is a serious affair. You are fined \$5."

THE master of the steam launch *Chung On* was charged this morning with blowing his whistle last evening, at Yau-mat-tai Bay, without any cause. "I did not blow the whistle. The wind was strong, and it caught the string and made the whistle sound!" Mr. Melbourne imposed a fine of \$10.

MR. Edaki, the Japanese Consul-General, and the leading Japanese residents entertained Admiral Taketomi, Prince Fushimi of the South China Squadron to dinner at the Astor House at Shanghai, on the 5th inst. Several Chinese officials were present.

AFTER being banished on four separate occasions, Li Kih-tse, his last appearance in the Colony yesterday and was arrested. The defendant, who is about seventy years of age, and is deaf, was ordered by Mr. F. A. Hazeland to be imprisoned for one year, and to be exposed in the stocks for four hours.

A VERY pretty juvenile cantata entitled "Playmates," which was recently performed by the young folk at Quarry Bay, will be repeated by special request in the Union Church School Hall at 7.30 to-morrow evening. It is expected there will be a good attendance, as on the former occasion the performance was highly appreciated by all present.

P. C. 112 prosecuted three sampanmen before Mr. F. A. Hazeland at the Police Court to-day for obstructing the s.s. *Kinsman* whilst she was entering the harbour at about ten o'clock last evening. Defendants were lying at anchor in the middle of the southern fairway. The defendants admitted the charge, and were fined \$10, with the option of one month's hard labour each.

SEVEN sampan owners were charged, before Mr. F. A. Hazeland, this morning, with anchoring in the typhoon anchorage, Causeway Bay, without a permit. Evidence was heard to the effect that the weather was not such as to allow them to enter the typhoon anchorage. Defendants averred that the wind was strong and they were afraid of lying in the open. His Worship fined them \$5 apiece.

AN aged Chinese woman and a conlie were arrested at four o'clock this morning at Shau-pu, Kowloon City, whilst going along the road with a bundle. The bundle was searched and the dead body of a child was discovered. They were charged before Mr. C. A. D. Melbourne this morning. The case was remanded to ascertain the cause of death. They were released on bail in the sum of \$10 each.

P. C. 49 Southland summoned Messrs. Price and Company, at the Magistracy this morning, for causing an obstruction on Connaught Road Central, on the 5th instant, by placing 37 barrels and 4 boxes on the road. The defendants said that they were waiting for the firm's truck. The police officer stated that they were discharging the goods from a junk near Blake Pier, and when told by him to stop discharging they paid no attention. Mr. F. A. Hazeland fined the defendants \$10.

JOHN Downie, an inmate of the House of Detention, failed to turn up at the "closing time" on the 2nd instant. A policeman was sent to find Downie and arrested him on the *Wingchut* wharf yesterday. Defendant, who was landed destitute in the Colony during the late war, in pleading guilty to the charge, said that he went out to look for work. He had been in the House of Detention for some months and wanted work. Mr. C. A. D. Melbourne sent defendant to gaol for one month, with hard labour.

WEISMAN, Limited, have been appointed purveyors to His Excellency the Governor.

THERE were six cases of plague in Hongkong during the past 24 hours, and of these five have succumbed to the disease.

THE Japanese, it is stated, are rapidly substituting flour for rice in their diet, and as a result the trade in flour between Australia and Japan should develop considerably in the near future.

THE Japanese training squadron left Manila at 10 o'clock on the 5th inst. for Thursday Island, from where they will continue their trip to other Australian ports for about a month. They will return by way of Batavia and Singapore.

At the opening of the Assizes at Penang on the 3rd inst., the solicitor-general remarked on the serious increase of crimes of violence in the Settlement. He pointed to the calendar which contained eight charges of such crimes. Justice Fisher concurred.

DURING the siege of Santa, Yemen, Arabia, by the Arabs, the population was reduced by famine from 70,000 to 10,000. All the cats and dogs in the town were eaten, and both Arabs and Turks resorted to cannibalism. One Turk admits that he killed and ate three Arabs.

It is reported by the *Asahi* that Vice-Admiral Sir Arthur William Moore, Commander-in-Chief of the British Squadron, who recently arrived at Hongkong by the *King Alfred*, will pay a visit to Japan in July or August, accompanying his squadron. The *Admiral* will shortly return home.

THE twelve Chinamen who were arrested recently at Sai-tan, Kowloon City, for playing *pa-chee*, an unlawful game, were brought up on remand, at the Magistracy to-day. Mr. Otto Kong Sing appeared for all the defendants. Mr. Melbourne fined the first three defendants \$50 each, and the others \$25 apiece.

A St. Petersburg telegram, which has been communicated by the *Osaka Mainichi*, states that Lieut. General Hnan has left St. Petersburg for Vladivostok. He has been entrusted with the task of carrying out the reconstruction of the fortress. It will be recalled that General Hnan took a prominent part in the defence of Port Arthur, and was subsequently for some time a prisoner in Japan.

It is stated that the Japanese destroyer *Yama-biko*, formerly the Russian *Restellini*, is being quarantined at Nagahama together with her crew. Since her capture at Cheloo by the Japanese under dramatic circumstances which will be fresh to the memories of our readers, it is reported that cases of typhus have continually occurred on board the destroyer, and it is supposed, that bacilli of the disease were left by the Russians.

THE British Admiralty has granted £8,000 to Rear-Admiral Percy Scott as a reward for his gunnery inventions. The *Admiral* Percy Scott, now borne on the books of the President as Inspector of Target Practice, is the inventor of the night-signalling apparatus now used in the Royal Navy, of various appliances for improving heavy gun shooting, and of the gun carriages which enabled the naval 6-inch and 4.7-inch guns to be used in South Africa.

AS will be remembered 27 military store-houses at Hiroshima with their contents, valued at about ¥5,000,000, were destroyed by fire on October 1st last. The conflagration was supposed to be the work of incendiaries and three men were arrested on suspicion of arson. One of them died in prison some time ago, and the other two were acquitted by the court-martial on the 30th ultimo on the ground of the insufficiency of evidence. The reason the men, civilians, were tried by court-martial is that at the time of the fire Hiroshima was under martial law.

AN ingenious contrivance, designed to lessen the terrors of sea-sickness, has been fitted up on the Hamburg-American Liner *Patricia*. Its success has, according to the *New York Herald* (Paris), exceeded all expectations. The apparatus consists of a special chair, the seat of which is kept in constant motion by means of a revolving disc, worked by small electric-motors. Sitting in one of these chairs, the passenger feels much the same sensation as if he were driving in an automobile. The seat is in constant vibration in an up-and-down direction. This short, vibratory motion counteracts the long pitching and heaving motions of the vessel. To put it in non-scientific language, it is a rocking-chair, with this difference, that the ship rocks instead of the chair. To such an extent is the vessel's motion neutralised, that the idea of being sick hardly occurs to the person seated in the chair. During a recent voyage between Hamburg and New York many passengers could hardly be persuaded to quit their seats for any length of time. One remained seated in a vibratory chair for as long as ten hours at a stretch. In some cases, after using the chair, passengers were no more troubled with sickness; in others a constant recourse had to be made to the chair, as the symptoms reappeared soon after it had been vacated. If the success of the first experiments is justified by more exhaustive trials, it is expected the system will be adopted on the Channel steamers.

## THE WEATHER.

The following report is from Mr. F. G. Figg, First Assistant of the Hongkong Observatory:—"On the 10th at 11.50 a.m. The barometer has risen generally, particularly over China and S. Japan. The depression has passed into the Pacific to the E. of Japan. The area of high pressure is lying over N.E. coast of China. Strong N.E. winds may be expected in the Formosa Channel and over the N. part of the China Sea. Forecast:—strong E. winds, dull, rainy."

## ALLEGED MURDER AT PING-CHAU.

FURTHER DETAILS OF THE TRAGEDY.

Li Lan, fisherman, Ping-chau island, was brought up on remand at the Magistracy to-day on the charge of murdering a native woman named Mo Lan, on 4th March, at Ping-chau island, near Mirs Bay.

Chief Detective Inspector Hanron conducted the case on behalf of the Police, and Mr. Otto Kong Sing defended.

Lok Kap Mai, sister-in-law of the deceased woman, about thirteen years of age, deposed that she lived at Tai-long village, Ping-chau. She had a brother named Lok Tak and her sister-in-law (deceased) was named Mo Lan. Witness saw the dead body of Mo Lan on 14th March. She lived with the deceased in the village and knew the defendant, who also resides in the village. The first time witness saw the defendant in her house was on 31st July, 1905, at noon. He was sitting near Mo Lan, the deceased, in a room. As soon as witness arrived at the house the defendant came out from the back room and left. The second occasion she saw the prisoner was in October, 1905. He was again with his sister-in-law. When defendant saw witness he said: "Why did you return so early? You had better go and play." On 3rd January, 1906, she again saw the defendant. He came to witness's house for the loan of a basin, and her sister-in-law handed it to him. On 5th March, 1906, at about 4 p.m., when witness was taking rice with the deceased woman at home, the deceased told witness that after her meal she was not to return to the house again, and that she must get her "chow" elsewhere. That night witness slept in another house, and returned home next morning, but did not see her sister-in-law in the house.

Cross-examined:—Witness had two brothers. One was unmarried. The other's intended wife was murdered. She was sure she was thirteen years of age, but witness could not count. Although the defendant with his mother and wife lived next door to witness, the latter never entered their house. Witness could not tell the month or year when she was born, she did not remember when last she saw J. S. G. nor could she say what date of the month to-day was yet she could remember the date and year first time she saw the prisoner.

Frank Browne, Government analyst, said that on March 15, a jacket (produced) was received by him. The garment was tested and two small bits of blood were found. The tests indicated that in all probability the blood was not more than six weeks old.

Cross-examined:—Witness could not tell whether the spots on the jacket were human blood or not.

Further evidence was called and the case adjourned.

## The Eruption of Vesuvius.

The eruption of Mount Vesuvius continues to be alarming.

Later.

The eruption of Vesuvius is assuming extraordinary proportions.

The cone on the Pompeii side has collapsed, and a new crater has opened on the opposite side.

Constant explosions occur, and the principal crater is vomiting red-hot rocks to the height of 3,000 feet.

Naples is crowded with refugees, the houses are shaken, and many of the inhabitants are collected in the squares at night.

## Russia and Tibet.

The Tsar has telegraphed to the Dalai Lama as follows: "A large number of my Buddhist subjects have had the happiness to pay homage to the great High Priest during his visit to Northern Mongolia, which borders on the Russian Empire."

The Tsar rejoices that his subjects have had the opportunity of benefiting by the salutary spiritual influence, and begs the Dalai Lama to accept his thanks and sincere regards.

## MACAO GAMBLING.

HONGKONG PLAYERS WITH A "SYSTEM."

"Monte Carlo" Wells has in my prototype in Hongkong, although they have to proceed to Macao to give vent to their passion. Usually they maintain that the beauty of the Portuguese Colony has a peculiar fascination for them, while the sea trip acts a stimulant and refreshes them for the rest of the week. In other words, being unable to run back and forth between Macao and Hongkong daily, they select Sunday for the stimulus they believe to be obtained from the daily breeze that blow over our sister isle. It is to be feared, however, that while there may be a few who really spend the day in admiration of the sights of Macao, the majority are content with but a hurried glance at that Colony's beauties, having more important business to transact in the centre of the city, at the gambling saloons to be precise. There are several colonies in Hongkong who regularly spend the winter Sundays at Macao and almost each has what it calls a "system." As every body knows "Monte Carlo" Wells had a "system" by which he broke the bank, but when, having in the meantime spent eight years in gaol, he again essayed to work that "system" he found that the "system" worked him. He failed egregiously to break the bank, the bank broke him, and all his fine promises to the people who believed in him and financed his "system" were scattered to the winds. On Sunday I at one of the Hongkong colonies having visited a system which could not fail, raked together all the ready money they could beg, borrow or commandeer, being firmly convinced that they would return laden with the spoils of the Gambling Empire. They refused to divulge their "system" at any price. It had been thought out at many sittings, and it was too valuable to be disclosed to any except those composing the secret circle which was going to make its united and individual fortune. They went to Macao and were not seen again until late on Monday evening. Alas! Their faces were longer than their purses. They had left their all with Fantan John, who is still chuckling in Macao. They returned to Hongkong on the old "system," which is still flourishing. And they were willing to state their gambling scheme, which has not made them rich. It appears that very little capital is necessary. With \$15 a gambler would be amply provided. You stake \$2 and went on doubling if you lost. If you won the winnings were put in one pocket and you kept on gambling with the original capital. If you lost you still kept on playing until all the \$25 had been exhausted, and then if you could tear yourself away from the tables there would be the \$2 or \$3 over from the first winnings. Of course the player played till every cent was gone. It was useless to say that this "system" is as old as the hills and the extent of one's losses generally depends on the depth of one's pocket. But these gambles are not quite broken down. They have at other "systems" which is as jealously guarded, and will probably be just as readily disclosed next week. One man of another colony won \$200—lucky dog!—they think he must have been on a "system" and they intend to watch him. They still cling to the belief that it is possible, on a capital of \$15 to earn \$500 a month, but \$500 would do at a pinch.

## THE PARTNERSHIP ISSUE.

## A LIK NOT PERJURY.

In Bankruptcy Jurisdiction in this afternoon His Honour Sir Francis Pigott, Chief Justice, presiding, the case of the Lai Hing Bank, ex parte Wong Ka Chun, was resumed. Mr. E. H. Sharp, K.C., instructed by Mr. G. K. Hall, B.A., of Messrs. Brutton, Heit and Golding, appeared for the Official Receiver, and Mr. M. W. Slade, instructed by Mr. R. A. Harding, represented Wong Ka Chun.

The case for both sides having been completed last night, and Mr. Slade having reviewed the evidence of his witnesses, addressed the jury.

Mr. Sharp, in making his statement, said that the most conclusive evidence against a man was his own statement made at a time when it was neither to his interest nor to his detriment to make such a statement. In this case Wong Ka Chun had been proved to have made the statement that he was a managing partner in the Lai Hing Bank, so late as in 1924. Mr. Sharp then proceeded to quote authorities in support of his point regarding a man's own statement, and then went on to say that an affidavit was a most solemn declaration, and that for this reason special people were appointed to swear in those signing such documents, after having thoroughly interpreted and explained the contents to the person signing, and the last clause in affidavits was an acknowledgment of the fact that they signed the same "honestly believing the same to be true." Here the man who now tried to set up a claim that he was not a partner had signed and filed not only one but five affidavits in which he described himself as "Managing partner of the Lai Hing Bank."

His Honour: There have only been two affidavits filed in the pleadings.

Mr. Sharp: If my memory bears me out there are five referred to; if I am wrong I'm sorry.

There was a prolonged search of the record which disclosed three affidavits.

Mr. Sharp then continuing his address referred to the contents of the affidavits and said they were either true or composed a perjury.

His Honour: No, no, I don't think you can put the question of perjury to the jury.

Mr. Sharp: And why, my Lord?

His Honour: Because it is immaterial.

Mr. Sharp: It is immaterial, my Lord, but I submit that it is a point.

His Honour: But, as you said, as there was no inducement to make the statement and it was not intended to deceive anybody it was not perjury—it was a lie, but not perjury.

Mr. Sharp: Very well then, my Lord, I will leave it entirely to your hands. Now, as to the partnership book, on which they rely so much, it is believed to be unreliable.

His Honour: That is the question of forgery which I think need not be gone into.

Mr. Sharp: Oh, as to the forgery, my Lord, I have dropped that, although we have it in evidence that Mr. Wakeman said he believed it to be a forgery.

His Honour: But that is immaterial.

Mr. Sharp: No, my Lord, it is not immaterial as it was a statement on oath.

His Honour: I don't think it was on oath.

Mr. Sharp: It was, my Lord, it was made by Mr. Wakeman on oath.

His Honour: I have no recollection of that statement.

Mr. Sharp: Mr. Wakeman made the statement on oath in the witness box. Your Lordship will not doubt find it in your notes.

His Honour: I find here that Mr. Wakeman said "I formed the opinion that it was a forgery."

Mr. Sharp: Ah, yes, I made the mistake of saying "he believed," instead of "he formed the opinion."

## IS IT CHINESE SUPERSTITION?

TO THE EDITOR OF THE "HONGKONG TELEGRAPH."

SIR,—Can you or any of your readers tell me if the following incident is a sample of Chinese superstition? Being much worried by rats at night I told my cousin to set a trap for them, which he did, but which I noticed a few minutes later he had neglected to bait. I then called my boy and was proceeding to tell him to ask the rooster what it felt he supposed there was in putting an unbaited trap to catch rats, when my boy astonished me by saying, "Better belong master no talker here; all rats can hear and they savor, and suppose they hear master talker they no come to the trap." All this was said in a serious and mysterious whisper, after which the boy took up the trap and returned with it heavily baited with cheese. But the next morning the cheese had entirely disappeared. That night, thinking to make sure of capturing the offending rodent I had a lump of ham securely tied to the hook and the trap set to a nicey (I falling, but, behold! in the morning it was discovered that every scrap of the ham had gone the way of the previous night's cheese while the trap remained onen! When I called my boy and showed him the empty open trap, he grinned blandly and said, "My talker you so like; rats savor too much." I gave it up and am now trying bird-time!—Yours etc.

## AN "AWFULLY NICE" HOUSE-BOY.

DEPARTS FOR THE INTERIOR.

Mrs. Sachse, of St. George's House, Kennedy Road, issued a summons against her house-boy for leaving her employ without giving notice. The "boy" entered the service of another family after leaving her, but had recently returned to the interior.

His Worship:—The "boy" is away. If you want I can adjourn the case sine die until he return.

Complainant:—It is not worth it. He was an awfully nice "boy," and I paid him his wages before he left.

His Worship:—Do you want to withdraw the summons?

Complainant:—Yes.

The charge was accordingly thrown out.

## GYMKHANA NOTES.

The first meeting of the season already advertised for and due to take place on Saturday next, the 14th inst., promises to be one of the most sporting ever held under the auspices of the Club. Never were such good ponies bought or kept over; never were they so well trained or fit; never were owners so sanguine; in connection with which latter item, the words of a Poet Laureate are very applicable. He sings:

"And yet if e'en one racing mope was all its owner said,  
All other blooming entered ones might just as well be dead."

Never were jocks so keen, and never has the "Club bar" been less patronized in consequence. Therefore taking all the novices into consideration we may expect a real good afternoon's sport and some exciting finishes.

The first race, the three-quarter mile event, for all subscription griffins, should bring out a good field and will be keenly competed for. Speculation, Pathan and Red Herring are all hot stuff and I should look no further for the winner. But rumour hath it, and though she has a lying tongue, we are at times fain to believe her. She says that a dark pony in more senses than one, who usually does his paces when the shades of night are falling, did three quarters in 1.37, and to cap it finished in 29 seconds. I refer to Common Rose. Had I a pony doing this time I should imagine the race was all over bar shouting; but as the Shanghai rider boys says "Can see, can save." The Challenge Cup has produced much speculation. This word must not be looked upon in the light of a tip, as there are others. Zapeter is looking and moving well; he always was a slug in training and always will be, but he has won over the course and has proved himself a race pony, a game one and a real trier. His noble owner is satisfied that he will run well, so what more can be required.

Exchange King has been going; his mile was rattled off in 2.15; this is distinctly useful and he will undoubtedly be there or thereabouts on Saturday. Mr. Brutton usually scores in Gymkhana and Rostern. I am told, is a perfect hurdle, so he holds a strong hand. Quail is going strong; his mile also took 2.5, and he finished very strong and going easily. Emerald King is showing the white feather; each time he turns into the straight for home cuts it and though not distressed with not try. Donnybrook has gone one better than all the rest and put a mile behind him in 2.14. He looks very fine drawn and a bit short of muscle so will improve a point or two before he starts. It is a pity Mr. Kish has not been entered. He has improved vastly since the meeting and now gallops in much more determined manner; he might possibly regain his Shanghai form. I have a sort of sneaking regard for Pathan, but what can a poor little sub possibly do against the great Ah Chow's griffins. At all events one can say that the cup is a very open affair and should be productive of much betting on the part.

The Hurdle Race is always good sport for the onlookers and one hardly comes to try and predict a winner as so many things might happen to prevent it coming off. Two ponies that are jumping well are Quail and Louis Castle. Glenburi we know is an old and tried hand and he will take a bit of beating. Several other ponies have to be put over the sticks before Saturday.

The Mile and a Quarter Race will probably bring out the Challenge Cup ponies again, and I think the longer distance should suit old Zuppy, but as weights will be an important consideration here one can scarcely hope at this stage to spot a likely one.

The two other events are Tent Pegging and a Ladies' Nomination, and may be expected to furnish good amusement. All things considered I can safely prophesy that given few weather the first gymkhana meeting of the season will prove a huge success, both from the point of attendance and good sport.

Later.

The following times were taken this a.m.:—Donnybrook (Ah Fook), 1 mile, 41.1, 4.4, 1.50, 2.36.

Mikoh (Ah Fook), 1 mile, 35.1, 1.10, 1.44.

Maori King (E. 222), 1 mile, 30.1, 1.01, 1.34.

Red Herring (Deacon), 1 mile, 30.1, 1.01, 1.34.

Doris Castle (Dupree), 1 mile, 1.45, last 15.

Velocity (Clark), 1 mile, 1.45, last 15.

Pathan (Clark), 1 mile, 1.45, last 15.

Emerald King (Gage), 1 mile, 1.37, 1.8, 1.44.

Quail (Mackie), 1 mile, 2.17.

Approx of this last gallop Quail's jock was altering his reins, and did not start with the first two ponies, being fully four seconds behind, and though having to make up all this ground ran Pathan to a close finish. This performance makes the Quail to be a very dangerous candidate for the Challenge Cup. Emerald King in this row strode along well for a half mile and then shut up like the proverbial knife, absolutely refusing to try a yard; a truly disappointing pony.

Zapeter (Dupree) cantered a mile in 2.30 with a strong run in the last three furlongs. He, too, is a dangerous candidate though I think a mile is scarcely far enough for him.

Exchange King, Rostern, Common Rose, and Blue Nile, etc. will gallop this afternoon.

A TURF ENTHUSIAST.

A SYDNEY paper says: It has been reported to the Government by the New South Wales Commercial Agent in the East that one outcome of the Chinese boycott of American goods is that certain Chinese merchants at Hongkong are buying inferior American flour, and rebagging it in bags specially made, and labelled as Australian. Some of it is labelled, "First Prize, Sydney." This must have a tendency to depreciate Australian flour in the eyes of other Eastern merchants, and so to do injury to this State and other parts of Australia. Mr. Suttor has made representations to the Government of Hongkong on the subject, and strongly urges that action be taken in the matter by New South Wales, either directly or through the Secretary of State for the Colonies.

## THE WRECKED "AGINCOURT."

## CREW ARRIVE IN PORT.

It is, of course, now generally known that the s.s. *Agincourt* is a total wreck, and has been abandoned. The s.s. *Germania*, which arrived in port on Sunday evening, brought up the master (Captain Sims), officers and Chinese crew, which she had taken off the ill-fated vessel on her way up to Hongkong from Sydney. It appears that the *Agincourt*, which was proceeding to Hongkong with a cargo of coal, struck an uncharted reef to the west of the island of Palau, in the Carolines group, and became a total wreck. It will be remembered that this same vessel was the cause of much speculation among shipping circles some 18 months ago when she was wrecked on the Paracels, and after successful, but lengthy, salvage operations, safely placed in the Kowloon docks, whence she later issued to all intents and purposes a new ship. But the troubles of the vessel did not end there as the crew refused to proceed north in her on the ground that she was carrying coal which was then contraband of war, and a new crew had to be shipped. The s.s. *Agincourt* was a steel crew steamer of 4,232 registered tonnage, classed 100 A 1 at Lloyd's and was built, in 1904, at Northumberland, by the Newcastle Shipbuilding Company for the Agincourt S.S. Co. (Lloyd and Co.).

## THE CHINA TRADERS' ASSOCIATION CO., LTD.

The report for presentation to the shareholders at the fortieth ordinary meeting, to be held at the Company's offices, on Saturday, the 28th inst., at 12.30 p.m., read:—

In conformity with the special resolutions duly passed and confirmed at the extraordinary general meetings of the Company held on the 16th February and 10th March last, the directors have now to lay before the shareholders the accompanying statement of accounts as at the 31st December, 1905.

The working account for the eight months from May to December, shows a balance at credit of \$198,294.17 out of which the directors recommend the payment of an interim dividend to shareholders of 12% (\$3 per share) absorbing \$72,000; a bonus of 15% to contributors on bonus-bearing contributions absorbing \$10,000, the remainder being carried forward to be dealt with at the next annual meeting.

Directors.—Mr. A. R. Linton having retired from the Board, Mr. F. Ormiston accepted the invitation of the directors to rejoin the Board, and his appointment will be submitted for the confirmation of shareholders.

Messrs. F. Gneiz and A. J. Raymond retire by rotation and offer themselves for re-election. Auditors.—The annexed accounts have been audited by Messrs. T. Arnold and H. U. Jeffries, who offer themselves for re-election.

H. W. SLADE, Chairman.

Hongkong, 10th April, 1906.

## SUBS IN MACDONALD ROAD.

## CURIOUS EUROPEAN CASE.

The noise of police whistles blowing, followed by the breaking of glass, drew the attention of an Indian constable, at a house at No. 112, Macdonald Road, Kowloon, at midnight, on the 4th instant. The policeman rushed up the staircase and found the trap-door on the third floor barricaded. He forced the trap-door and the occupants, numbering about ten Europeans, got on to the roof of the building and crossed to the adjoining building. Several officers had then gathered in the building and the cries of "save life" drew them to the roof, where they found the occupants attempting to hide. There were several women there. A summons was issued with the result that the occupier, a woman named Lily Greig, appeared before Mr. Melbourn, and pleaded guilty to being disorderly. Inspector Langley informed the Court that there had been several complaints as regards this house. He would not ask that the defendant be fined, but simply bound over to be of good conduct for one year.
